

CSA Safety Scores Monitoring Tool

Monitor your CSA BASICs score anytime. Using your DOT number, you can view your safety scores in real time and receive alerts whenever BASICs are at risk of going out of compliance or whenever they exceed the suggested benchmark.

The portal organizes CSA data by top violator groups and violators and breaks the data down further by drivers and vehicles along with their related violations details.

**Finally, safety scores
understandable
at a glance!**

To access the free version, which gives you access to publicly displayed CSA data, visit <https://csapro.fleetmetrica.com>

To access a free 30-day trial to also view your private data, and to gain access to all the features such as email notifications, click on the prompt **"Request Admin Rights"** and follow the instructions. Once you are granted admin rights then the prompt will guide you to **"Start Your Premium Trial"** and then **"Grant Fleetmetrica Access"** to make your data viewable to your company's administrator and anyone they choose to share this with.
