

CSA Safety Scores Monitoring Tool

Monitor your CSA BASICs score anytime. Using the DOT number and your Motor Carrier PIN, you can view your safety scores in real time and receive alerts when BASICs categories are at risk of going out of compliance or when they are above the suggested benchmark.

The portal organizes CSA data by top violator groups and violators and breaks the data down further by drivers and vehicles along with their related violation details.

Finally, safety scores understandable at a glance!

To access the beta version for free, visit <https://app.fleetmetrica.com/signup>.

The beta version is available to fleet owners and managers for testing and following beta testing users will be able to access a free 30-day trail to view CSA safety scores.

We would be delighted to receive your feedback on what changes or improvements you would like to see added to this beta version.

Please share your comments at info@fleetmetrica.com and put in the subject heading "Re: Feedback on the BETA version".
